### Suggested Citation

Taylor, E. (2016). Program Directory of Early Psychosis Intervention Programs. Portland, OR: EASA Center for Excellence.

# Purpose

This directory was developed by the [Early Assessment and Support Alliance \(EASA\) Center for Excellence](#) at Portland State University. It was originally developed in partnership with the Foundation for Excellence in Mental Health Care ([mentalhealthexcellence.org](http://mentalhealthexcellence.org)). Currently, it is maintained in partnership with the National Training and Technical Assistance Center (NTTAC) for Children's Behavioral Health. For questions or concerns, please contact Ellie Taylor, Research Associate with the EASA Center for Excellence, at [elinor.taylor@pdx.edu](mailto:elinor.taylor@pdx.edu).

NTTAC was created in 2015 by the Substance and Mental Health Services Administration (SAMHSA) to address the needs of high-risk children and youth. NTTAC's TA Network is a partnership of 14 universities and organizations that include Children's Mental Health Initiative, System of Care Expansion Implementation, and System of Care Expansion and Sustainability Cooperative Agreements, as well as to states, tribes, territories and communities without grant awards.

The EASA Center for Excellence is a TA Network partner. EASA consists of a statewide network of programs in Oregon with a coordinated approach to early psychosis intervention. It provides information and support to young people who are experiencing symptoms of

psychosis for the first time. The EASA Center for Excellence provides training, research and program development statewide in Oregon and nationally. For more information, please visit <http://easacommunity.org>.

The purpose of this directory is to create a database and directory of early intervention programs for psychosis within the U.S. Additional goals include helping people find resources in their communities and facilitating a communicated network among these programs. This information is up-to-date as of May 15th, 2016, but its relevance may change as programs do.

Reflecting the growing national collaboration, this version of the directory features expanded national, state, and program information. This includes a new section on national resources, state contact people for early psychosis section, and program criteria (e.g., accepted age ranges, types of insurance accepted). If you are affiliated with a program and would like to contribute its information, please [complete our survey](#).

This directory is undergoing continuing development as more data about programs becomes available. We at EASA recognize the importance of early intervention generally for young adults and families in need, and that early psychosis intervention is an active field of research. Thus, we aim to be inclusive and include all program information available. Thank you for your participation and interest.

# National Resources

## NATIONAL & INTERNATIONAL NETWORKING

---

### Partners for StrongMinds (P4SM)

P4SM is a national platform of young people living with psychosis, families, researchers, clinicians, and systems dedicated to demystifying and de-stigmatizing psychosis. Tracks and disseminates psychosis research and policy news. Extensive social media campaign that shares perspectives of young adults with lived experience.

**Website:** <http://partners4strongminds.org>

**Facebook:** <https://facebook.com/Partners4StrongMinds>

**Twitter:** <https://twitter.com/@p4sm>

### The Prodrome and Early Psychosis Program Network (PEPPNET)

A national membership organization of clinicians, educators, policy leaders, government agencies and researchers who are leading community implementation efforts for early psychosis and psychosis risk programs. Supported by Stanford Medicine's Dept. of Psychiatry and Behavioral Sciences. Provides education, research dissemination, a national listserv to connect professionals, and many other resources.

**Website:** <http://med.stanford.edu/peppnet.html>

### IEPA Early Intervention in Mental Health

IEPA is an international network for those involved in the study and treatment of the early phases of mental health disorders encompassing a trans-diagnostic approach. With its origins in early intervention in psychosis, IEPA aims to enhance awareness of the early phases of mental health disorders more generally, their causes, prevention and the process of recovery. It aims to provide a network for international communication and collaboration between stakeholders.

**Website:** <https://iepa.org.au>

## ADVOCACY & SUPPORT

---

### The National Alliance on Mental Illness (NAMI)

NAMI is the nation's largest grassroots mental health organization. Provides support groups, advocacy, education, and many other resources. They are developing new resources for early psychosis intervention, including providing trainings and materials. They offer a toll-free national HelpLine that provides free referrals, information, and support. Visit their website or

call the HelpLine for more information about national and local resources.

**Website:** <https://nami.org>

**Phone:** 800-950-6262

## MyHealios

MyHealios is an evidence-based caregiver support service that is provided to families and caregivers via live video conferencing. Provides specific resources and support for caregivers of individuals with psychosis. Provides free 30 min. consultations to callers.

**Website:** <https://myhealios.com>

**Phone:** 855-313-8152

## The StrongMinds Project

The StrongMinds Project is run by a group of “passionate young people who’ve struggled with our mental health, and are back to chasing our dreams after finding effective support and resources.” They produce videos, blogs, and a wide range of information created by young people with lived experience.

**Website:** <http://strongmindsproject.org>

## RESOURCES FOR FINDING HELP

### Partners for StrongMinds (PS4M) Treatment Tracker

An extensive, frequently updated map and list of Early Intervention for Psychosis programs in

the U.S. Provides contact information for each program.

**Website:** <http://partners4strongminds.org/get-involved/education-center/finding-treatment>

## HelpWhenYouNeedIt.Org

An online directory of over 350,000 national private and public resources including mental health treatment, food pantries, stores that accept food stamps, assisted living facilities, domestic violence shelters, homeless shelters, hospitals, substance abuse treatment, free clinics, V.A. facilities, women’s clinics, and legal assistance or financial assistance. Enter a zip code to find nearby listings.

**Website:** <http://helpwhenyoneedit.org>

## International Listing of Early Intervention for Psychosis Programs

An online international listing provided through the IEPA, an international network for those involved in the study and treatment of the early phases of mental health disorders.

**Website:** <https://iepa.org.au/by-country>

## The National Suicide Prevention Lifeline Network

More than 150 crisis centers across the country participate in the National Suicide Prevention Lifeline Network. The network connects callers to a trained counselor in their area. Visit their website to view crisis lines by state or zip code.

Or, call their helpline to be routed to the closest available crisis center.

**Website:** <http://suicidepreventionlifeline.org/getinvolved/locator>

**Phone:** 800-273-TALK (800-273-8255)

## Suicide.org

Suicide.org is an extensive online directory of listings for crisis hotlines, organized by state and county.

**Website:** <http://suicide.org/suicide-hotlines.html>

## The Staglin Music Festival Center for the Assessment and Prevention of Prodromal States (CAPPS)

Departments of Psychology and Psychiatry &  
Biobehavioral Sciences  
University of California, Los Angeles  
Semel Institute for Neuroscience and Human  
Behavior  
760 Westwood Plaza, 2nd Floor  
Los Angeles, CA 90095

**Populations served:** First Episode Psychosis –  
schizophrenia and bipolar spectrums, Psychosis  
Risk/Prodrome

**Ages served:** 12-30

**Insurance accepted:** “As a research clinic, we do  
not accept insurance and all of our services are  
free of charge.”

**Service model:** “Assessment and treatment  
planning with outside providers.”

**Additional info:** “Assessment services are all free  
and include clinical, psychosocial, and neuro-  
psychological assessments conducted every  
two to six months to closely monitor symptoms  
and functioning. Findings and recommendations  
are shared with outside treatment providers  
to aid in treatment planning, school advocacy  
and crisis intervention. Participants will be  
offered adjunct services including frequent and  
intensive evaluations, including diagnostic and  
neuropsychological assessments, psychoedu-  
cation, treatment planning (including services  
from CAPPS and the community), case manage-  
ment, and referral services.”
